

From Cotton Field to Garment

Since our beginnings in 2000, part of our collection has been produced at the family-owned Sunflag Tanzania, using local East African cotton. Started in the 1960s by our founder's grandfather, the factory continues to be run by her family to this day.

From Cotton to Finished Textile:

Sunflag Tanzania is fully vertical – with every stage of production under one roof. Spinning, knitting, dyeing, cutting and sewing: all done in-house, no sub-contracting.

Truly African

The cotton we use comes from Biosustain – a local Tanzanian cooperative that practices organic and regenerative farming.

Fully Certified.

We've been using organic cotton since 2005,
and Sunflag Tanzania became Africa's first
GOTS-certified textile mill in 2008.

Data refers to **BZ30-Baby Long Sleeve Bodysuit**. Verified by www.greenstory.io

A small, desktop-sized globe is positioned against a plain white background. The globe is tilted on its axis and features a map of the world with a focus on the Americas. North America is visible in the upper half, and South America is in the lower half. The oceans are a light blue, and the landmasses are colored in shades of green and brown to represent vegetation and terrain. A transparent blue plastic ring is attached to the globe's frame, curving around the right side. The globe sits on a black, circular base. Overlaid on the center of the globe is the text 'BABYBUGZ' in a bold, black, sans-serif font. Each letter has a white dashed outline, giving it a cut-out or sticker-like appearance.
